With the release of their latest CD, *Among Your Friends*, Irish Speed Folk trio Clover's Revenge is gaining fans and building excitement throughout the United States and Europe. The band has over 1 million streams on Spotify. The CD features driving traditional tunes, rousing pub songs and original compositions that are rooted in their unique combination of punk rock and acoustic Irish folk music which they call "Irish Speed Folk". Their performances are high-energy and full of hilarious banter.

Zach Johnson (guitar), John Barron (mandolin), and Beau Wilberding (cajon) create an energized and precise musical collaboration as they challenge their audiences to engage and have as much fun as they do.

Clover's Revenge plan to travel to Ireland next summer, along with some of their most die-hard fans, to visit Kilkenny, Wexford, Cork, and Killarney; explore the beautiful countryside; and play and listen to Celtic music.

Clover's Revenge is available for pubs, fights, wakes, festivals, and other venues that either defy definition or belong to a very specific category. They have shared the stage with The Young Dubliners, The Byrne Brothers, Albannach, Syr, Screaming Orphans, and Seven Nations to name a few.
